Infection Prevention in Dental

Insist on Whiteley Corporation when ordering your Infection Prevention products

Whiteley
Corporation

The instruments used in dentistry are often very delicate, expensive and the chemicals used to clean instruments need to be specially formulated to effectively clean and disinfect without harming the instruments or users. Whiteley Corporation has developed a range of instrument detergents and disinfectants specifically for use in Dentistry.

CLINIMAX®
Instrument & Equipment Detergent

- Mildly alkaline, non-hazardous, multipurpose detergent for dental applications that is specifically formulated to meet the requirements of AS/NZS 4187 and AS/NZS 4815.
- Designed for use in manual and ultrasonic dental instrument cleaning, equipment cleaning and environmental surfaces i.e. lighting, benches and trolleys.
- ARTG No: 125528

Pack Size: 5L, 1L

MATRIX®
Biofilm Remover

- Bacterial biofilms cause product failure, equipment contamination and increased risk of infection.
- MATRIX® breaks the surface adhesion causing the biofilm to 'peel-back' and collapse on itself.
- Dissolves the complex carbohydrates – EPS (Exo Poly Substance).
- MATRIX® impacts viable bacteria within the biofilm.
- ARTG No: 125529

Pack Size: 5L, 1L

SONIDET®
Medical Equipment & Instrument Detergent

- Safe for use on most instruments and devices.
- Specifically designed for both ultrasonic and manual cleaning operations.
- Free rinsing and bacteriostatic.
- Suitable for environmental surface cleaning where required.
- ARTG No: 125529

Pack Size: 5L, empty 500mL bottle

INSTRUMAX® PINK
Instrument Grade Disinfectant – Low Level

- Proven to kill a broad range of bacteria and viruses including the Influenza virus, Herpes Simplex virus and Hepatitis B virus. Kills Coronaviruses including SARS-CoV-2 (COVID-19).
- Helps reduce the risk of cross infection and is suitable for use on non-critical medical devices including X-ray head/cone and dental impressions.*
- Does not contain any phenolics or chlorine.
- Simplifies complex cleaning and disinfecting procedures.
- ARTG No: 135544

*Suitable for use on most alginates.

Pack Size: 5L, 500mL

OPAL®
Instrument Grade - High Level Disinfectant

- OPAL® is an Ortho-Phthalaldehyde (OPA) based high level disinfectant that features a reuse period of up to twice the length of competitors.*
- OPAL® is suitable for manual disinfection of compatible semi-critical medical and dental devices.
- OPAL® Test Strips also available for testing MRC of OPAL®.
– ARTG No: 206575.

* When product is decanted from the bottle.

Pack Size: 5L, 1L

Surface cleaning of benches, trolleys and equipment within the dental environment using neutral detergents assists in removing organic soil from contaminated surfaces.

SPEEDY CLEAN
Hospital Grade Neutral Detergent – Ready to Use

- Fast drying leaving surfaces streak free.
- Suitable for pre-cleaning soiled surfaces before disinfection.
- Included as a Class I Medical Device ARTG No: 125529

Pack Size: 500mL

SPEEDY CLEAN WIPES
Hospital Grade Neutral Detergent Wipes

- Ready-to-use hospital grade, anionic neutral detergent wipes.
- Fast drying leaving surfaces streak free.
- Suitable for pre-cleaning soiled surfaces before disinfection.
- Included as a Class I Medical Device ARTG No: 125529

Pack Size: 100 Wipes (Canister), 50 Wipes (Flatpack)

Whiteley Corporation

VIRACLEAN®
Hospital Grade Disinfectant

- Specially formulated disinfectant which passes TGA option B.
- Proven to kill a broad range of bacteria and viruses including the Influenza virus, Herpes Simplex virus, and Hepatitis B virus. Kills Coronaviruses including SARS-CoV-2 (COVID-19).
- Suitable for use on benches, light fittings, chairs, stools and tables.
- Does not contain any phenolics or chlorine.
- pH neutral and friendly to metals (non corrosive)
- Simplifies complex cleaning and disinfecting procedures.
- AUST L: 69000

Pack Size: 5L, 500mL Trigger, 500mL Squeeze

V-WIPES
Hospital Grade Disinfectant Wipes

- pH neutral – safe for use on most surfaces and equipment.
- Highly absorbent apetured fabric.
- Leaves surfaces streak free.
- Extremely durable.
- Non-flammable and non-hazardous.
- Does not contain phenolics or chlorine.
- Non corrosive to metals.
- AUST L: 160901

Pack Size: 100 Wipes (Canister), 50 Wipes (Flatpack)

KOBALT
Hospital Grade Disinfectant

- Ready-to-use.
- Contains 70% Ethanol.
- Kills pathogenic micro-organisms within the dental environment.
- Suitable for use in disinfecting non-medical instruments/devices after precleaning with a neutral detergent.

Pack Size: 5L

MEDAC
Acidic Detergent

- Brightening of stainless steel instruments and utensils.
- Periodic brightening of stainless steel instruments and utensils in ultrasonic machines.
- Surface brightening of stainless steel benches and trolleys.
- Removal of scale and soil deposits in sterilizers, dishwashing machines, ultrasonic machines, anaesthetic apparatus decontaminators, washer sanitisers and hot water soaking baths.
- Descaling plastic and glass utensils.

Pack Size: 5L

HAND SANITISER

BACTOL® ALCOHOL GEL
Anti-bacterial Hand Sanitiser

- Contains 70% Ethanol v/v.
- Contains natural emolients to replenish the skin's lipids.
- AUST R: 155397

Pack Size: 80mL, carabiner, 500mL, 1L pod

BACTOL® MOISTURISER
Bactol® Moisturiser has been designed to protect the skin. It is enriched with Vitamin E, pH balanced and lanolin free. It absorbs quickly and is suitable for use under gloves. The perfect complement to Bactol® alcohol based hand rub.
