

# FABRISOLV

## SOLVENT SPOTTER

### BENEFITS:

- Uses natural terpene solvents
- Does not contain any petroleum solvents
- Fast acting, rapid penetration
- Non flammable

FABRISOLV is a new generation D-Limonene based solvent spot remover. FABRISOLV is specifically designed for the removal of oil and solvent based stains such as paint, oil, grease, ink and lipstick etc.

FABRISOLV is a synergised combination of D-Limonene solvent and a surfactant blend which combine together to penetrate, remove and suspend all types of spots and stains in carpets. The unique combination of emulsifiable solvents in FABRISOLV make it soluble in water and as a consequence it is easier to use than straight solvent type products.

### DIRECTIONS FOR USE

Before using any solvent based spotter always test a small patch of carpet to ensure the solvent does not bleed any dye from the carpet fibres or cause any other unnecessary damage.

**Pretesting:** Some aged and coloured stains may require special treatment therefore it is always advisable to pretest a small area first.

**Spot:** Apply FABRISOLV undiluted to the spot. Using a small soft brush or cloth lightly scrub the spot starting from the outside of the spot and working towards the centre. Absorb as much FABRISOLV as possible from the carpet using an absorbent cloth. Then wet extract the remnants using Fabripowr or Fabripowr Plus.

**Large Areas:** Mix 1 part of FABRISOLV to 10 parts water and spray on the carpet at a rate of approximately 4.5 litres per 20 square meters of carpet. The concentration may need to be increased on very heavily soiled carpets. Allow to soak for 10 to 15 minutes. Wet Extract FABRISOLV from the carpet using Fabripowr or Fabripowr Plus.

## **SAFETY DATA**

For further information refer to the Material Safety Data Sheet (MSDS) located on the Whiteley Industrial web site: [www.whiteley.com.au](http://www.whiteley.com.au)

## **HEALTH AND SAFETY STATEMENT**

There is no way of predicting an individual's response to cleaning or disinfecting products. All cleaning and disinfecting products have potential to cause skin and other irritation in susceptible individuals. Direct physical contact with the skin should be avoided. If irritation does occur when using this product or any other cleaning/disinfecting solution then the individual should be removed from direct contact with the solution until a satisfactory safe working environment for that individual is determined.

## **ENVIRONMENTAL STATEMENT**

Whiteley Industrial manufactures products that comply with Australian and International environmental policy. Whiteley Industrial aims to ensure that every product is 100% biodegradable, whilst achieving optimal performance and benefit to customers. All Whiteley Industrial products are supplied in 100% recyclable containers.

Whiteley Industrial and its staff are fully committed to ensuring that our Australian environment and those international environs in which our products are used are enhanced by the use of technology, and that these environments are preserved for the enjoyment of future generations.
