TSSDGK is a large sized dangerous goods spill kit is designed for use on land in areas where there is a risk of spill of up to 205 litres. The contents of this kit makes it ideal for areas where 205 litre drums are used and decanted. It contains additional PPE and drum repair putty.

To avoid conflict with AS4123.7, all Spill Station spill kits are now supplied in lime green bodies and lids that meet the AusSpill Quality Guidelines.
