1 lime green mobile wheelie bin 240 ltr

1 yellow bin lid

Dimensions: 550 × 740 × 1070 mm

When storing 205 litre drums, TSS300EA hazchem spill kit is ideal. If a forklift is operating around pallets of drums and puncture one drum, chances are it will puncture two drums with both tines. This hazchem spill kit has a capacity of 290 litres to help deal with such an incident.

To avoid conflict with AS4123.7, all Spill Station spill kits are now supplied in lime green bodies and lids that meet the AusSpill Quality Guidelines.
