

## Formalin Spill Response Kit

SKU: Formalin Spill Response Kit (ZTSSFNK)

Link: <https://www.spillstation.com.au/spill-kits-lab-med/formalin-spill-response-kit/>

## Product Information

---

### Absorbing Capacity: 7 Litre

Vapors surrendered during a formalin spill can be harmful and must be addressed quickly. This formalin spill kit contains a neutralising agent and a rapid absorber to convert the liquid to an easily managed solid.

The spill kit comes complete with warning signs, instructions, disposal bags and basic personal protection equipment but additional equipment such as organic vapour respirators can be included if required.

## Product Description

---

Formalin spill kits are designed to deal with spills of dilute aqueous solutions of formaldehyde or more commonly known as formalin. It reduces exposure to formaldehyde gas in the event of a spill. The neutralising powder contained in formalin spill kits will convert formalin into a passive, non-toxic substance. The super absorbent polymer cools down the solution and reduces formaldehyde concentration and is transformed into an easily removable semi-solid mass. The resulting mass cools rapidly minimising formaldehyde off-gassing. The conversion from a liquid hazard into an easily managed solidified gel only takes less than 5 minutes.

Contents:

- Formalin Neutralising Powder
- Super Absorbent Polymer
- Dirteeze MAX60 Absorbent Sheets

- Goggles
- Protective Disposable Apron
- Disposable Nitrile Gloves
- Labelled 10 Litre Pail
- Scoop and Scraper
- Clinical Waste Bags
- Overshoes and Hairnet
- "Caution Spill" Sign
- Instruction Sheet
