

OPA & Glutaraldehyde Spill Response Kit

SKU: OPA & Glutaraldehyde Spill Response Kit (ZTSSGNGK)

Link: <https://www.spillstation.com.au/industrial-absorbents/opa-glutaraldehyde-spill-response-kit/>

Product Information

Absorbing Capacity: 5 Litres

The ZTSSGNGK OPA & glutaraldehyde spill response kit is designed to treat and absorb OPA and -aldehyde spills commonly found in sterilising rooms.

As well as containing neutralising agent and absorbent, each kit contains PPE and disposal components to deal with spills in clinical environments.

Product Description

The glutaraldehyde pre-treatment powder can treat up to 4L of 1% solution and the absorbent polymer powder can solidify up to 5L of spill. The conversion from a liquid hazard into an easily managed solidified gel takes under 5 minutes.

This spill kit comes complete with warning signs, instructions, waste disposal bags and basic personal protection equipment but additional equipment such as extra absorbents or organic vapour respirators can be included if required.
